A flexible dental
plan for children

That's the world of Denplan for you.

Denplan
At the heart of dental care

Reassurance for you
- and brighter smiles
for your child

Always looking their best for every precious moment

Birthday parties, Christmas, weddings and family holidays ... when precious moments are captured forever in photos and videos, every parent wants their child to have good dental habits so their smile shines.

With Plans for Children, it's easier to keep their teeth in excellent condition through childhood. Doing the best for your children doesn't need to be expensive.

Plans for Children provides reassurance:

- Check-ups, hygiene treatment and preventive dental advice are all included - so you can spot and avoid problems before they start, and your plan may include other treatments at the dentist's discretion
- If there's a dental emergency or injury, your child benefits from worldwide dental injury and dental emergency cover, whether they are in the UK* or on holiday (see Supplementary Insurance details for this plan). Simply call our UK-based, 24-Hour Worldwide Dental Emergency Helpline and we'll put your mind at rest
* Emergency treatment applies when more than 40 miles from your dental practice

Thinking ahead will help you and your child

- Plans for Children includes check-ups, so it's easier to plan ahead. This helps your child to become completely comfortable with trips to the dentist - rather than being over-anxious (which can continue into later life)
- Your dentist will offer friendly, expert advice to you and your child. This can help keep their teeth in excellent shape and prevent problems
- With Plans for Children, you can budget wisely, so your child always gets the care they need, avoiding the risk of unexpected bills

Questions and Answers

Why is preventive care important?

As a child develops, their teeth and oral health can change rapidly. Information and advice on preventive dentistry can help to stop problems developing before they start.

How much does it cost?

Talk to your dentist. They'll explain the options and tailor a plan that's right for your child and a monthly payment that's right for you. With a focus on preventing problems and providing peace of mind.

How do I register my child onto Plans for Children?

The easiest way is to arrange an appointment with your child's Denplan dentist. The dentist will discuss your child's dental care with you and advise you of the cost of the plan. They will ask you to sign a Denplan Plans for Children Contract with them and complete an application form which is then sent to Denplan.

It's worth remembering that treatment is always at the discretion of the dentist and tailored to your child's needs.

Further information, benefit limits, exclusions and full terms and conditions can be found in the Plans for Children Membership Booklet.
